Good morning Mr. Ross,

In response to your inquiry I guess maybe there was a lack of explanation on my part. I was informed by the Town Attorney for the Town of Whitestown, that he will be addressing the "meeting" that you are referring to, I'm sure he will be providing all the records of the meeting from Mr. Shrantz as well as any other Town Officials that were present. I am confident that all the records of the meeting will be made available to either myself or directly to yourself in a timely manner.
